McFarland Cascade representatives to participate in Spokane Home & Yard Show
Local businessmen provide backyard living solutions Feb. 22-25

Spokane, Wash.—Robert Mueller, Spokane-area territory manager, and Alan Rosemeier, product merchandiser for McFarland Cascade, will participate in the Spokane Home & Yard Show Feb. 22-25.

At the show, consumers can explore McFarland Cascade's unique decking solutions in 3-D. They also can get help to create customized outdoor living options.

McFarland Cascade's 10 x 30 foot booth includes true scale models of the company's most popular decking and rail products. People can walk on the deck surfaces, inspect the products, and ask questions of McFarland Cascade staff members.

At booth spaces 476, 477 and 478, consumers can learn how they can get the company's "Do It Yourself" deck design software, pick up samples and product information and get information on a qualified installer.

McFarland Cascade's premier decking and railing line that will be on display at the show includes:

- **Stonedeck™**— Featured in Sunset Magazine in August of 2005 and 2006, these light-weight natural stone tiles backed with a high-strength composite will install on standard above ground deck frames with no additional substructure required. Stonedek can be used for an entire project or as an accent.
- **Extreme Tropical Hardwoods**—When nothing but real wood will do, McFarland Cascade's Extreme Tropical Hardwood line offer richness and durability that choosy customers appreciate. Their dramatic grains and distinctive colors can add value and elegance to any home, while their natural resistance to fungi and termites offer maintenance benefits.
- **Xtendex®**—A rice-hull-based composite that naturally resists insects and mold, Xtendex features the Quick Clip no-visible-screw building system. This wood-free choice is more stain and scratch resistant than most other composite options and installs in up to half the time. It combines principals of conservation with practical engineering and ease of use.

- **DrySnap and Rain Escape**—Homeowners can maximize outdoor living spaces—even during rainy days—by transforming unsightly under-deck overhangs into dry and attractive usable spaces. Gain a porch or a dry storage space for lawn and gardening equipment, bikes, and more.

For more information, or to receive McFarland Cascade's catalogue featuring its complete line of products, call (800) 426-8430, or download it online at www.mcfarlandcascade.com.

The Spokane Home & Yard Show takes place Feb. 22-25 at the Spokane Fairgrounds. Tickets are \$6 for the entire weekend. Admission is free for children 12 and under. Parking is free. Call (509) 924-0588 or visit www.custershows.com for more information about the show.

McFarland Cascade—the outdoor projects people—enhances the quality, style and comfort of exterior home projects. A manufacturer and distributor of pressure-treated consumer lumber, composite decking and other products that are sold through quality retailers throughout the West, the company began as a producer of poles and pilings in Sandpoint, Idaho in 1916.
